Introduction:

Start with a comfortable thread length. I recommend about 5 feet (about 1.50 meter) for starting.

String a stopper bead leaving about 4" (10 cm) tail. Go through the stopper bead twice to anchor the bead. (Stopper bead is an 11/0 round seed bead different color from those you are working with. This bead will remove at the end of our work).

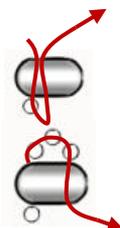

Adding Thread:

I recommend to string new thread knot it to your work and locate it out of the last bead that you work. Usually I think it is best to knot the thread into the work on the thread between 2 beads and then continue through the beads to the last bead that your old thread is point out of.

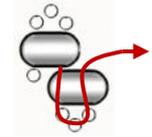

Only then finish the old thread.
